EDUCATION

National University of Singapore **Aug 2023 – Present**

- PhD Candidate in Department of Information Systems and Analytics, School of Computing
- Research Interests: Analytical Modelling for Media Platforms

National University of Singapore **Aug 2019 – May 2023**

- BSc (Hons) in Data Science and Analytics, Highest Distinction
- Second Major in Economics, Minor in Computer Science
- Awards: Dean's List in AY2021/22 and AY2022/23, Undergraduate Science & Technology Scholarship

WORK & RESEARCH EXPERIENCES

Teaching Assistant, NUS Department of Information Systems and Analytics (DISA), Singapore **July 2023 – Present**

Academic department with extensive research in the fields of information systems and data analytics.

- School of Computing Full-Time Teaching Assistant Award 2026
- BT1101 Introduction to Business Analytics, Semester 1 & 2, AY2023/24
- IS4242 Intelligent Systems and Techniques, Semester 1, AY2024/25
- IS4303 IT-mediated Financial Solutions and Platforms, Semester 2, AY2024/25 & AY2025/26
- BT3102 Computational Methods for Business Analytics, Semester 1, AY2025/26

Teaching Assistant, NUS Department of Statistics and Data Science (DSDS), Singapore **July 2022 – May 2023**

Academic department with the goals to advance statistical and data science.

- Faculty of Science Part-Time Teaching Assistant Award AY2022/23
- DSA2101 Essential Data Analytics Tools: Data Visualisation, Semester 1 & 2, AY2022/23

Student Research Assistant, NUS Institute of Operations Research (IORA), Singapore **Jan 2022 – June 2023**

Academic institute with research focuses on the optimization, analysis and management of service systems.

- Conducted Bayesian structural estimation for comparative statics, processed data from multiple sources in Python and R, and assisted in model diagnostics in multiple projects including contest design and pilot training
- Performed model robustness checking with extensive simulations for herd detection in financial forecasts using large-scale Bayesian structural estimation methods

Data Engineer Intern, ByteDance, Singapore **May 2021 – July 2021**

Chinese multinational internet technology company with products including Tik Tok and Douyin.

- Constructed and optimised data pipelines using Hive, Spark, Kafka to account for costs and revenues of video services such as storage, transcoding, playing and content delivery network (CDN)
- Built forecasting model in Python to predict usage of bandwidth by video services with mean absolute error less than 3% (improved from > 10%) to help budget planning
- Collaborated with product managers and engineers to provide accurate and timely dashboard reporting

Data Analytics Intern, International SOS, Singapore **Dec 2020 – Jan 2021**

World's leading health and security risk services company.

- Assisted data scientists and data analysts with timely data cleaning, modelling and reporting
- Wrote R scripts to automate data quality checking of more than 1,000,000 entries in data migration project
- Analyzed medical data, applied clustering model with feature engineering to provide operational insights

ADDITIONAL INFORMATION

- Programming Tools: Python, R, MATLAB, Mathematica, STATA, SQL, Java, Tableau
- Languages: English(fluent), Chinese(native), Japanese(elementary)
